## EXPERIENCE

### Administrative Manager

#### Livingston Management, Inc. 2007

- Established policies and procedures
- Databasing (creating a database system as well as inputting data into an existing database)
- Organized past paper data into a computer format
- Worked as a team in fast-paced, deadline-driven environment

### Undergraduate Researcher, medical illustration

#### LSU: Dr. Homberger's Lab (comparative anatomy lab), 2006-2007

- Drew sketches and concept drawings for presentations and books
- Assisted in cleanup of past illustrations to make them suitable for computerized presentation

### Sales/Resale

#### Hancock Fabrics, 2005-2006

- Worked with a team of coworkers in a fast paced commercial environment
- Planned displays for the store to showcase merchandise
- Interacted directly with 100s of customers daily in resale and personal relations

### Research Assistant, lab technician

#### LSU: Dr. Newcomer's Lab (crystallography), 2002-2006

- Researched the ALDH12 protein
- Assisted graduate students with various research projects
